

Welcome to Solar Weekly Insight, presenting the most important developments in the global solar industry, ranging from significant industry trends, policies, research, and new technologies to markets and pricing.

This week's top stories are India's participation in the global trade war, Yingli and Ja Solar results, and China, Ukraine market developments.

In Addition we are featuring an exclusive interview with Sourabh Sen, co-Chair of Indian developer Astonfield, who shares his insights on the nation's market.

India joins global solar trade war

On November 23rd, 2012 the Indian Ministry of Commerce & Industry announced that it will begin an anti-dumping investigation into solar photovoltaic (PV) cell and module imports from China, Malaysia, Taiwan and the United States.
